## BRECK'S OF BOSTON

SEEDSMEN SINCE 1818

BOSTON 10, MASS.

Dear Gardening Friend:

While on a business trip to England and Europe last summer, I had the pleasure of arriving at the height of the season to catch the beauty of Old World gardens at their best. Blooms galore, in a rainbow of colors, greeted me everywhere—in parks, along roadways, in small yards, even in window boxes! You who have been there know what I mean.

It was interesting to learn, too, that some of England's finest lawns are well over 100 years old! The climate helps, but correct materials and know-how are important, too.

The point I'd like to make is that the beauty of European gardens is no secret—they result from the same basic elements you'll find within these pages—good seeds, bulbs, fertilizers. Yours can be a garden of color and beauty with a little planning and coaching. We would like to help!

Why not start the season early indoors with some seeds and bulbs? You'll find interesting tips on how this is done on pages 4 to 7. And there's no need to envy the English lawns—yours can be luxuriant and green, too, by following the suggestions on pages 42 and 43!

I look forward to hearing from you. Thanks for your fine orders!

Yours for better  
American gardens,

*Luther A. Breck, Jr.*

**2845 Masquerade.** 6 in. If you like Pansies big, bright-colored and without too many dark shades, you must grow Masquerade! The strong-growing, bushy plants have loads of flowers in all the beautiful, bright Pansy colors and gorgeous combinations. Plenty of the much-wanted blue, mauve and lavender shades. Pkt. 50¢

### Imported SWISS GIANTS

Like to enjoy a Pansy bouquet? You can with tall stemmed Swiss Giants! Beautiful colors—huge, velvety-textured flowers—the most beautiful Pansies we have seen! Imported seed grown in Switzerland for Breck's by the originator. 8-12 in.

**2862 Blumlisalp** (Raspberry Rose). Soft pink with contrasting black, velvety blotch.

**2864 Alpenglühn** (Alpenglow). Mahogany red shades, nearly black centers.

**2867 Berna.** Dark, velvety violet.

**2870 Thunersee** (Lake of Thun). Intense blue with dark center.

**2878 Jungfrau.** White as the snow that caps this famous Alpine peak!

**2879 Monch** (Coronation Gold). Golden yellow. Pkts. 35¢ each

**2885 Swiss Giants Mixed.** A magnificent blend of rich colors, best we've ever seen! Pkt. 25¢

### FAMOUS FELIX

**2856 Pansy Felix.** 1 ft. Uniformly large blooms in rich, unusual colors. Each flower is marked with an intricate pattern of dark lines against a lighter background. These lines resemble the "whiskers" of "Felix", the famous cartoon cat! Well-ruffled flowers on compact, vigorous plants. Pkt. 35¢

### BOSTON PRIZE MIXED PANSIES

**2861** For years we've furnished the seed for the famous Boston Public Gardens. Boston Prize Mixed combines an unbeatable color balance with uniform dwarf habit and large flowers.

Pkt. 35¢; 1/16 oz. 1.75; ¼ oz. 5.25

### KEEP EDGING PLANTS OFF GRASS!

Tuck these 5" Benda-Brace Supports under plants and push into ground. Keeps plants from sprawling over lawn. Invisible; indispensable!

**C361L** Benda-Brace. 3 lbs. Doz., 3.00

### MESEMBRYANTHEMUM Annual

Low spreading; easily-grown plants that thrive in sunny locations and light sandy soil. Particularly good near seashore.

**2667 Criniflorum, Desert Daisy.** 3 to 4 in. Brilliantly colored, large, daisy-like flowers in shades of lavender, pink, rose, red and white. A carpet of glowing color! Pkt. 25¢

**2668 Crystalinum, Ice Plant.** 3 to 4 in. A most unusual plant grown for its curious thick foliage which appears as if frosted with glistening ice-like beads. The pinkish-white flowers are small and inconspicuous. Pkt. 25¢

# TUBEROUS ROOTED BEGONIAS

## HOW TO GROW BEGONIAS

For early blooms, start them indoors in soil or dampened peat moss in February or March. Begonias may be grown in boxes or flats, but the Fiber Pots (see p. 54) or the Begonia Starter Sets (see below) are ideally suited for the purpose and are downright useful!

Just set the tubers into the soil or peat moss, hollow side up, and covered not over 1/2-in. Water sparingly until they sprout, increasing the amount as

leaves appear. Choose a window or porch with good light, where the temperature is from 60 to 70 degrees.

After a few weeks, the plants will have extensive root systems and may be transplanted into 8-in. pots (p. 7). Tuberous Begonias may be set outdoors after all danger of frost is past. Choose a shady spot that is sheltered from strong winds. In damp areas, dust plants with Breck's Rose and Flower Spray-Dust (p. 48) to prevent mildew.

## PEACOCK ORCHID, *Acidanthera*

Available February to May

**FC103 Murielae.** (Illus. on page 2.) Delicate creamy-white with purple-brown center. Haunting fragrance! Plant in May in moist, rich deep soil. Extra feedings help growth. **10 for 1.25**;  
25 for **2.80**; 100 for **10.25**

1. Caladiums will do well outdoors where summer daily temperatures average 70° or more. This includes most of the United States except the extreme northern section.

2. They are very much at home in deep shade . . . where little else will grow . . . providing masses of gorgeous color to brighten dark corners. They do well in semi-shade and also in full sunlight. When grown in full sun, they should not be allowed to become dry.

3. Bulbs may be started indoors as early as February 15 and transplanted outdoors when weather is settled warm. They do not like cold weather. Caladiums, of course, do well in pots or tubs used as patio decorations or in window boxes.

4. Bulbs planted directly into the garden when soil is warm (after Memorial Day in the latitude of Boston) will produce magnificent plants in less than a month!

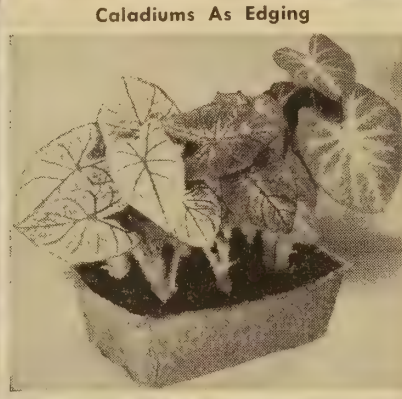

Plant Caladiums generously—for colorful accents—to brighten shady corners! Foliage may be cut for arrangements. Plant them 'round your summer home (they require little or no care) and be the envy of your neighborhood!

## NEW SPECIOSUM UN-NAMED HYBRIDS

Have you ever wanted to own the only flower of its kind in the world? Here is your opportunity! The price is reasonable, the rewards may be high. We have secured a limited supply of hybrid lilies of a rare blood-line. These bulbs have not yet flowered, but are guaranteed to flower in 1960. Similar crosses have produced some remarkable flowers... as large as 10-12 in. across, as compared with 4 in. for ordinary Speciosums... so we know that these can be outstanding. By July or August you may have a flower worth many times its cost—you will have an improved Speciosum, or something between these extremes. Colors range from white flushed with pale pink to white with vivid red markings and dots. Hardy, New England grown bulbs with strong stems and glossy, dark green foliage. Height will range from two to four feet. Order early—supply is limited and we will not substitute when stocks are sold out. Limit 3 bulbs per customer.

**BRECK'S**

Officially  
Approved by the  
Massachusetts  
Audubon Society

You can be assured that all Breck's bird supplies are the finest ever made—recently tested and highly approved by the well-known Audubon Society of Massachusetts! Breck's healthful, well-balanced bird seed formulas are most widely acceptable for all birds, perfected to attract more varieties of wild life to your feeders. The grateful birds will thank you!

## Breck's Country Life "MOOSE HILL" WILD BIRD FOOD

Our own famous mixture—for years the choice of experts—is now the officially approved "Moose Hill" mixture of the Massachusetts Audubon Society. Mixed to strictest specifications, it contains nothing but the choicest re-cleaned ingredients and, because it contains no "filler" seeds, it will be eaten to the last seed. All seeds are not eaten by birds that normally inhabit your garden. Years of testing have shown us which seeds are most desirable. Sunflower and Peanut Hearts are included in extra generous quantities. Millets and other proven favorites make up the balance, plus the exact percentage of grit needed to aid digestion. Use Country Life in your feeders and watch the difference! More birds will use them . . . and there will be no waste.
